** Unlimited hours p/month, 4hour session limits, 15 minute idle timeout between sessions			
Block plans simply recharged when expired, no rollover with any plan.			
Up to 5 mailboxes allowed per casual dial in plan, business plans negotiable.			

With our 01983xxxxxx dial facility, your Home ISDN call is, by ACA regulation, pegged to 30c/hr per channel, **WITH NO FLAG-FALL COST**. Home ISDN affords 2 call channels that can support simultaneous calls. That means with a Home ISDN service, your call to our 01983xxxxxx facility, at 64k, approximately 44 mins will elapse, before the call equals the standard analogue modem call flag-fall cost of 22c. Of course 128k ISDN calls halve all these equations.

Longer duration calls incur an ongoing cost at the 30c/hr rate, charged per second. Your telephone carriers' account itemises these calls for you to keep track of usage.

For longer term connections, eyreonline offer 64k, 128k-512k multi-linked DoV connections, where ISDN calls are charged at a local voice flag-fall charge (22c), BUT NO FURTHER TIME COST, This is popular for businesses that require continuous connection, either all day, or 24/7

For any of the above options, 256k ISDN is sometimes eligible for subsidy under the HiBIS scheme. Contact us for more information on this, or visit www.dcita.gov.au and follow the links to the Higher Bandwidth Incentive Scheme.

5mb Personal site (www.yourname.eyreonline.com)	Free with casual connection plan, \$22 setup fee
